**COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF**

Date:
Time:
Courtroom:
Judge:
Trial Date:
Action Filed:

INTRODUCTION

1
2 1. The Governor of the State of California and the State of California bring this action to
3 protect the State against the illegal actions of the President, Secretary of Defense, and Department
4 of Defense to deploy members of the California National Guard, without lawful authority, and in
5 violation of the Constitution.

6 2. One of the cornerstones of our Nation and our democracy is that our people are
7 governed by civil, not military, rule. The Founders enshrined these principles in our
8 Constitution— that a government should be accountable to its people, guided by the rule of law,
9 and one of civil authority, not military rule.

10 3. President Trump has repeatedly invoked emergency powers to exceed the bounds of
11 lawful executive authority. On Saturday, June 7, he used a protest that local authorities had under
12 control to make another unprecedented power grab, this time at the cost of the sovereignty of the
13 State of California and in disregard of the authority and role of the Governor as commander-in-
14 chief of the State’s National Guard.

15 4. The vehicle the President has sought to invoke for this unprecedented usurpation of
16 state authority and resources is a statute, 10 U.S.C. § 12406, that has been invoked on its own
17 only once before and for highly unusual circumstances not presented here. Invoking this statute,
18 the President issued a Memorandum on June 7, 2025 (Trump Memo), “call[ing] into Federal
19 service members and units of the National Guard.” Secretary of Defense Hegseth, in turn, issued
20 a Memorandum (DOD Order) that same day to the Adjutant General of California, ordering 2,000
21 California National Guard members into federal service. And on June 9, 2025, Secretary Hegseth
22 issued another Memorandum (June 9 DOD Order) ordering an additional 2,000 California
23 National Guard members into federal service.

24 5. These orders were issued despite the text of section 12406, which, among other
25 things, requires that when the President calls members of a State National Guard into federal
26 service pursuant to that statute, those orders “shall be issued through the governors of the States.”
27 10 U.S.C. § 12406. Instead, Secretary Hegseth unlawfully bypassed the Governor of California,
28 issuing an order that by statute must go through him.

1 6. As a result, the National Guard has been deployed to Los Angeles. And now, on top
2 of the National Guard, Defendants are reportedly also deploying Marines to the area.

3 7. The President’s federalization and deployment of the National Guard for reasons not
4 authorized by law and without input from or consent of the Governor contravenes core statutory
5 and constitutional restrictions. Use of the regular armed forces is similarly unlawful here.

6 8. The Constitution reserves to the States power over their respective state militias—
7 now the National Guard— unless the State requests or consents to federal control. Only under the
8 most exigent of circumstances can the President, over the objections of a State, call the National
9 Guard into federal service. The balance the Framers struck between the State’s power to control
10 its own militia and the very narrow circumstances in which the federal government may take
11 command and control of the militia serves as a vital check against federal overreach. Section
12 12406 does not provide the authority Defendants have claimed and cannot be the vehicle for their
13 actions.

14 9. The Constitution grants the States—not the federal Executive—the authority to
15 conduct ordinary law enforcement activities and to determine how their own state laws should be
16 enforced.

17 10. Reflecting the Founders’ distrust of military rule, the U.S. Constitution and the laws
18 of our Nation strictly limit the domestic use of the military, including the federalized National
19 Guard. The Posse Comitatus Act codifies these strict rules, prohibiting the military from engaging
20 in civil law enforcement unless explicitly authorized by law. The authority to use the military
21 domestically for civil law enforcement is reserved for dire, narrow circumstances, none of which
22 is present here. Defendants have overstepped the bounds of law and are intent on going as far as
23 they can to use the military in unprecedented, unlawful ways.

24 11. It appears that the Trump Administration intends to treat section 12406 as a
25 mechanism to evade these time-honored constitutional limits. But the statute provides no such
26 authority. This Court should reject the unlawful attempt by Defendants to wrest away the State’s
27 control of its own National Guard for improper and unjustified ends.
28

JURISDICTION AND VENUE

12. The Court has jurisdiction pursuant to 28 U.S.C. §§ 1331, 1346, and 2201(a).

13. Venue is proper in this judicial district under 28 U.S.C. § 1391(e) because the California Attorney General and the State of California have offices at 455 Golden Gate Avenue, San Francisco, California and at 1515 Clay Street, Oakland, California, and therefore reside in this district, and no real property is involved in this action. This is a civil action in which Defendants are agencies of the United States or officers of such an agency.

14. Assignment to the San Francisco Division of this District is proper pursuant to Civil Local Rule 3-2(c)-(d) and 3-5(b) because Plaintiffs maintain offices in the District of San Francisco.

PARTIES

15. Plaintiff Gavin Newsom is the Governor of the State of California. In his capacity as Governor, Governor Newsom is the Commander-in-Chief of the California National Guard. Cal. Const., art. V, § 7.

16. Attorney General Rob Bonta is the chief law officer of the State of California and head of the California Department of Justice. He has the authority to file civil actions to protect California's rights and interests and the resources of this State. Cal. Const., art. V, § 13; Cal. Gov't Code §§ 12510-11, 12600-12; see *Pierce v. Superior Court*, 1 Cal. 2d 759, 761-62 (1934) (The Attorney General "has the power to file any civil action or proceeding directly involving the rights and interests of the state . . . and the protection of public rights and interests.").

17. Defendant Donald Trump is the President of the United States. In his official capacity as such, he issued a Memorandum on June 7, 2025, directing the federalization of the National Guard. He is the Commander-in-Chief of the United States' armed forces, including the National Guard when under federal control. He is sued in his official capacity.

18. Defendant Peter Hegseth is the Secretary of Defense and head of the Department of Defense. On June 7 and June 9, 2025, Secretary Hegseth issued Memoranda ordering California National Guard members into federal service. He is sued in his official capacity.

1 19. Defendant U.S. Department of Defense (DOD) is a department of the executive
2 branch of the United States government, responsible for coordinating the activities of the United
3 States' armed forces, including the National Guard when under federal control.

4 20. Defendant U.S. Department of Defense and Defendant Hegseth shall collectively be
5 referred to as the "DOD Defendants."

6 **FACTS**

7 **A. Immigration Raids Give Rise to Protests**

8 21. On Friday, June 6, 2025, Immigration and Customs Enforcement (ICE) officers
9 carried out enforcement actions at multiple locations within Los Angeles County and the City of
10 Los Angeles. According to news reports that rely on statements from the Department of
11 Homeland Security, ICE officers were executing search warrants at various locations, including
12 outside Ambiance Apparel, a clothing wholesaler. ICE reportedly also carried out enforcement
13 activities that included detentions and arrests at a doughnut shop in the Fashion District of
14 downtown Los Angeles and two Home Depot stores in the Westlake District in Los Angeles.

15 22. Prior to the ICE operations, federal officials did not provide the leadership of the Los
16 Angeles Sheriff's Department (LASD) or Los Angeles Police Department (LAPD) with any
17 notice as to the planned operations or otherwise attempt to coordinate activities to protect the
18 safety of the public.

19 23. During the course of these operations, ICE and its agents reportedly took actions that
20 inflamed tensions and provoked protest. On information and belief, agents engaged in military-
21 style operations while conducting these detentions and arrests that sparked panic in the
22 community. For example, in some instances, ICE agents were reportedly observed sealing off
23 entire streets around targeted buildings and using unmarked armored vehicles equipped with
24 paramilitary gear.

25 24. In all, the Department of Homeland Security reported that its enforcement activities
26 on Friday, June 6, resulted in the arrest of approximately 44 individuals and 70-80 people
27 detained in total.
28

1 25. That same day, members of the public gathered in protest at the Edward R. Roybal
2 Federal Building and U.S. Courthouse. This building, located at 255 E. Temple St., Los Angeles,
3 CA 90012, includes a detention facility known as “B-18.” On information and belief,
4 protestors gathered at this location based on reports that individuals who were detained during
5 the ICE operations were being held there. Protesters also gathered at other locations where ICE
6 operations were reportedly happening, including in the City of Paramount, a city in Los Angeles
7 County.

8 26. While not unified in their views or tactics, most protesters seem to have gathered to
9 express their opposition to the manner in which the Trump Administration has executed its
10 immigration agenda and to express solidarity with and concern for the individuals and families
11 most directly impacted by the enforcement actions taking place in their community.

12 27. During the protests, Service Employees International Union California leader David
13 Huerta was injured in the midst of interactions with federal agents. He was arrested, treated at a
14 nearby hospital, and then detained. Federal authorities have alleged that Mr. Huerta was
15 obstructing federal agents’ access to a worksite where they were executing a warrant, while in
16 contrast, Union representatives have reported that Mr. Huerta was detained while exercising his
17 First Amendment right to observe and document law enforcement activity. The arrest of Mr.
18 Huerta, who remains detained as of the date of filing, led to further upset in the community.

19 28. Protests continued on June 7, and June 8, 2025.

20 29. Most of those involved in protesting have been exercising their rights under the First
21 Amendment in a peaceful, non-violent, and legally compliant manner. There have no doubt been
22 exceptions. News reports have shown some individuals in the midst of these protests breaking the
23 law and acting violently, for example by throwing objects at law enforcement officers and
24 damaging property, including by setting fires. State and local law enforcement agencies have
25 responded to such actions, and Governor Newsom and other state and local officials have
26 unequivocally condemned such conduct and called for the prosecution of such law breaking.

27 30. At no point in the past three days has there been a rebellion or an insurrection. Nor
28 have these protests risen to the level of protests or riots that Los Angeles and other major cities

1 have seen at points in the past, including in recent years. The protests and unrest of the past three
2 days pale in comparison to a host of examples, including the time when the National Guard was
3 last federalized for riot control – in 1992, at the then-Governor’s request, during the “Rodney
4 King riots.” That unrest involved thousands of people across Los Angeles County, resulting in
5 multiple shootouts, over sixty deaths, thousands of people injured, and more than 12,000 arrests.

6 **B. Local Authorities Quickly Respond and Are Able to Control and Manage Conditions**

7 31. Both the Los Angeles Police Department (LAPD) and Los Angeles Sheriff
8 Department (LASD) have substantial training and experience responding to protests and large-
9 scale riots. The last instance in which it was determined there was need or want for the
10 intervention of federal authorities occurred in 1992, in the above-described circumstances that
11 stand in sharp contrast to the events that commenced on June 6.

12 32. LAPD and LASD have been responding promptly, professionally, and effectively to
13 the events unfolding in the City and County. Officers from both Departments have been on the
14 ground, actively enforcing the law, issuing and enforcing orders to disperse, and protecting public
15 safety and property as well as federal personnel.

16 33. In the afternoon of June 6, 2025, some time after protesters had gathered near the
17 Roybal Federal Building and its “B-18” detention facility, federal agents sent a request to LAPD
18 for assistance. Within an hour, assistance from LAPD arrived on the scene and began
19 coordinating their officers to address the situation with the protesters.

20 34. LAPD would have responded sooner had federal officials coordinated with LAPD
21 prior to engaging in the enforcement actions. Federal officials did not, and as a result LAPD was
22 unable to proactively plan for the potential incidents, for example by pre-positioning resources,
23 and it was not positioned to immediately deploy appropriate staffing and equipment.

24 35. Around 7:50 p.m., LAPD declared an unlawful assembly in the area of the protest
25 site, at the intersection of Alameda and Temple Streets, and it issued an order for the protesters to
26 disperse or be arrested.

27 36. By approximately 8:00 p.m., the crowd started to disperse, with LAPD officers
28 blocking their path back to the B-18 detention center.

1 37. A few hours later, LAPD received a report that another crowd had gathered outside of
2 a parking lot in Chinatown. The group dispersed as federal agents established a perimeter.

3 38. ICE immigration enforcement activity continued the next day, Saturday, June 7.

4 39. Protests continued in the City of Los Angeles that were by all accounts peaceful.

5 40. The LAPD issued a statement that night that “demonstrations across the City of Los
6 Angeles remained peaceful,” and commended those who exercised their First Amendment rights
7 responsibly.

8 41. Earlier in the day, outside the City, but within the County of Los Angeles, there were
9 other protests. At approximately 10:15 a.m., personnel from LASD responded to the 6400 Block
10 of Paramount Boulevard in Paramount, CA, following reports of a large crowd gathering in the
11 area and obstructing traffic.

12 42. Upon arrival, LASD deputies observed the presence of federal law enforcement
13 officers and a significant number of individuals gathering to protest. Federal officials did not give
14 LASD any forewarning of any of the planned operations in that area, or otherwise attempt to
15 coordinate activities.

16 43. LASD positioned its officers around the intersection of Alondra Boulevard and
17 Atlantic Avenue, and deployed less-lethal weapons.

18 44. At approximately 4:00 p.m., LASD declared an unlawful assembly and instructed
19 individuals to leave the area or be arrested. Officers shot tear gas canisters into the crowd and
20 protesters retreated.

21 45. By 7:00 p.m., approximately 100 protesters had gathered on the other side of the 710
22 Freeway near Atlantic Avenue and Alondra Boulevard.

23 46. At about 9:30 p.m. a line of LASD deputies and vehicles began moving toward the
24 crowd, forcing them back, and by midnight, most of demonstrators began to leave.

25 47. LASD’s standard practice is to call in assistance from other local agencies, such as
26 sheriff’s departments from neighboring counties, and then for direct aid from state agencies when
27 LASD determines that it cannot handle a situation. These two steps would be done before a
28

1 request for federal assistance would be made. But LASD did not need and did not request the
2 assistance of other agencies to gain control of the protests.

3 48. Governor Newsom has also taken steps to ensure that the State itself is actively
4 providing support, in close coordination with the City and County, and there are no unmet needs
5 from local law enforcement. Local law enforcement agencies have not requested any assistance,
6 but if they were to do so, the State is more than prepared to meet any needs that may arise. As an
7 example, on June 6 and June 7, the State deployed additional California Highway Patrol
8 personnel to maintain safety and order on Los Angeles highways.

9 49. ICE continues to carry out immigration enforcement, including in Los Angeles
10 County.

11 **C. Without Consent or Even Official Notice to the Governor, the President Federalizes**
12 **the National Guard**

13 50. Early on Saturday, June 7, Border Czar Tom Homan stated “Mayor [Karen] Bass
14 should be thanking us. She says they are going to mobilize—guess what? We are already
15 mobilizing. We are going to bring the National Guard in tonight.”

16 51. Over the course of the day, the Department of Defense (DOD) did not communicate
17 directly with the Governor’s Office regarding any planned activation and deployment of
18 California National Guard members.

19 52. At no time prior to issuing the memorandum to federalize the California National
20 Guard troops did the DOD seek approval from Governor Newsom to utilize California’s National
21 Guard to protect federal agents and federal property, or otherwise notify or seek concurrence from
22 the Governor or his office regarding the planned mobilization of the National Guard.

23 ///
24
25
26
27
28

53. At 5:13 p.m. on June 7, the Governor communicated unequivocally and publicly on social media that he disapproved of the federal government’s plans, which were unnecessary because “there is currently no unmet need,” and which would be counterproductive because it would “only escalate tensions” and “erode public trust”:

Governor Gavin Newsom 
@CAgovernor

The federal government is moving to take over the California National Guard and deploy 2,000 soldiers. That move is purposefully inflammatory and will only escalate tensions.

LA authorities are able to access law enforcement assistance at a moment’s notice. We are in close coordination with the city and county, and there is currently no unmet need.

The Guard has been admirably serving LA throughout recovery.

This is the wrong mission and will erode public trust.

5:13 PM · Jun 7, 2025 · **7.4M** Views

54. On the evening of June 7, President Trump issued a memorandum entitled “Department of Defense Security for the Protection of Department of Homeland Security Functions” (the Trump Memo). The Trump Memo does not identify the Los Angeles protests, the State, or any specific geographic region by name, but instead refers to “[n]umerous incidents of violence and disorder” that “have recently occurred and threaten to continue in response” to ICE enforcement of federal immigration laws and to threats to the security of federal immigration detention facilities and other federal property. The Trump Memo also states that “[t]o the extent that protests or acts of violence directly inhibit the execution of the laws, they constitute a form of rebellion against the authority of the Government of the United States.”

55. The Trump Memo states: “In light of these incidents and credible threats of continued violence, by the authority vested in me as President by the Constitution and the laws of the United

1 States of America, I hereby call into Federal service members and units of the National Guard
 2 under 10 U.S.C. 12406 to temporarily protect ICE and other United States Government personnel
 3 who are performing Federal functions, including the enforcement of Federal law, and to protect
 4 Federal property, at locations where protests against these functions are occurring or are likely to
 5 occur based on current threat assessments and planned operations.”

6 56. The Trump Memo further directs the Secretary of Defense “to coordinate with the
 7 Governors of the States and the National Guard Bureau in identifying and ordering into Federal
 8 service the appropriate members and units of the National Guard under this authority.” The
 9 Trump Memo specifies that the members and units called into federal services “shall be at least
 10 2,000 National Guard personnel and the duration of duty shall be for 60 days or at the discretion
 11 of the Secretary of Defense.” Finally, the Trump Memo authorizes personnel to “perform those
 12 military protective activities that the Secretary of Defense determines are reasonably necessary to
 13 ensure the protection and safety of Federal personnel and property.”

14 57. The provision cited by President Trump for his authority to take this step—section
 15 12406—states that:

16 Whenever—

17 (1) the United States, or any of the Commonwealths or possessions, is invaded or
 18 is in danger of invasion by a foreign nation;

19 (2) there is a rebellion or danger of a rebellion against the authority of the
 20 Government of the United States; or

21 (3) the President is unable with the regular forces to execute the laws of the United
 22 States;

23 The President may call into Federal service members and units of the National
 24 Guard of any State in such numbers as he considers necessary to repel the
 25 invasion, suppress the rebellion, or execute those laws. Orders for these purposes
 26 shall be issued through the governors of the States or, in the case of the District of
 27 Columbia, through the commanding general of the National Guard of the District
 28 of Columbia.

1 10 U.S.C. § 12406.

2 58. This is only the second time in our nation’s history that a President has relied on the
3 exclusive authority of this provision to federalize the National Guard. The first was President
4 Richard Nixon when he called upon the National Guard to deliver the mail during the 1970 Postal
5 Service Strike. This is also the first time since 1965—when President Johnson sent troops to
6 Alabama to protect civil rights demonstrators, under different federal authority—that a president
7 has activated a State’s National Guard without a request from the State’s Governor.

8 59. Later in evening of June 7, Secretary Hegseth sent a memorandum (the “DOD
9 Order”) to the Adjutant General of California, who leads the California National Guard but also
10 holds a federal commission as a reserve of the United States Army. Secretary Hegseth attached
11 the Trump Memo and called into federal service 2,000 members of the California National Guard
12 for a period of 60 days.

13 60. The Adjutant General subsequently shared the DOD Order with the Governor’s
14 Office; however, at no time did the Governor or his Office provide consent to the mobilization or
15 issue orders through the Governor mobilizing the Guard members.

16 61. Shortly thereafter on the same evening, the Adjutant General relinquished command
17 of the 79th Infantry Brigade Combat Team to General Gregory M. Guillot, commander of U.S.
18 Northern Command (USNORTHCOM). Since that time, all orders issued to this unit have come
19 from USNORTHCOM.

20 62. The service members of the 79th Infantry Brigade Combat Team come from across
21 California. Many members are based in San Diego, but other members have individual residences
22 throughout the State, and the 79th has subordinate units based in various parts of the state,
23 including Richmond, California.

24 63. When the 300 deployed California National Guard troops and armored vehicles began
25 arriving in Los Angeles on Sunday morning, the city was quiet. The local police and sheriff’s
26 departments had addressed any disturbances up to that point.

27 64. On June 8, the Governor’s Office sent a letter to Secretary Hegseth objecting to the
28 federalization and deployment of California National Guard troops to Los Angeles and requesting

1 that DOD rescind its order. The letter also reiterated that local law enforcement is more than
2 capable of responding to the situation in Los Angeles and had taken robust action to protect
3 federal facilities and maintain order.

4 65. On June 9, 2025, Secretary Hegseth issued a second memorandum (June 9 DOD
5 Order) ordering the federalization of 2,000 additional California National Guard members. Once
6 again, this order was not issued through the Governor and did not provide any opportunity for the
7 Governor to review or consent.

8 66. While the face of the Defendants' orders purport to direct the deployment of the
9 federalized National Guard members to protect federal property and federal personnel carrying
10 out their functions, these directives are phrased in an ambiguous manner and suggest potential
11 misuse of the federalized National Guard. It is unclear what actions Secretary Hegseth will deem
12 as "reasonably necessary to ensure the protection and safety of Federal personnel and property."
13 Among other concerns, the lengthy duration of the deployment (60 days) and location (not just
14 where protests are occurring, but where they are "likely" to occur) indicate that the National
15 Guard may be compelled to accompany immigration enforcement on its missions in any location
16 with potentially dissenting residents.

17 67. Defendants have already made clear their intention to expand the use of these
18 National Guard members to effectuate interior civil immigration enforcement activities normally
19 conducted by civil immigration law enforcement officers. For example, on the evening of June 8,
20 President Trump issued a statement on social media purporting to direct DOD and other federal
21 agencies to "take all action necessary to liberate Los Angeles from the Migrant Invasion[.]" And
22 he informed the media: "We're going to have troops everywhere."

23 68. Already, fear and terror are spreading in communities across California as a result of
24 Defendants' actions. And, as predicted by Governor Newsom and other state and local leaders,
25 the deployment of the National Guard seems to have only heightened tensions with protesters and
26 residents in Los Angeles.

D. Defendants' Mobilization of California's National Guard Members Usurps the Authority of the Governor and Harms the State of California

69. Defendants' actions unlawfully activating 4,000 California National Guard members into federal service directly infringes on Governor Newsom's proper role of Commander-in-Chief of the California National Guard. Cal. Const. art. V, § 7; U.S. Const. art. I, §§ 8, cls. 15-16; amend. X. Except when the State's militia has been lawfully called into federal service, the Governor maintains command and control of the militia.

70. As Commander-in-Chief, the Governor of California calls members of the California National Guard into active duty to serve the needs of California. The California National Guard is vital for various State functions including emergency and natural disaster response and drug interdiction. The California National Guard acts to protect people and property in many ways, and the State relies on the National Guard to be ready to intervene in emergent situations to help protect Californians. As a general matter, it is the Governor, in conjunction with local law enforcement, who is best situated to determine the resources needed in times of emergency.

71. By unlawfully diverting 4,000 service members from their state responsibilities for at least 60 days, Defendants' action impairs the Governor's ability as Commander-in-Chief of the California National Guard to call upon the State's National Guard for emergencies and to carry out other critical functions.

72. The California National Guard, composed of the California Army National Guard and the California Air National Guard, has approximately 18,733 service members, with 12,212 available for deployment. Most of the California National Guard members serve as reserve forces, meaning that their role in the California National Guard is part-time, and they are generally employed in civilian roles separate from their work as service members. Many of these service members receive specialized training to perform specific duties, and all play a critical role in protecting the State.

73. As a recent example of the National Guard's important work, in January 2025, the Guard was called upon to assist in fighting one of the most destructive fires in the State's history in Los Angeles County. Between January 7, 2025, when the fires started, and January 11, 2025,

1 Governor Newsom activated 2,500 service members to support firefighting efforts. Many of the
2 National Guard members were dispatched the same day as the fire began. In addition to
3 firefighting support, the National Guard's provision of resources was critical to assisting local
4 authorities and ensuring the safety of the surrounding community, firefighting brigades, and
5 pilots.

6 74. This deployment comes when California is in the midst of peak wildfire season for
7 both Northern and Southern California and may need to rely on their crucial support, as the State
8 did during the Los Angeles fires earlier this year.

9 75. When the State faces simultaneous emergencies, the National Guard's resources can
10 be stretched thin. For example, in 2020, the California National Guard was required to respond to
11 COVID-19, multiple wildfires at once, and civil unrest, significantly burdening the National
12 Guard's military policing resources and making it difficult to fulfill emergent needs across the
13 State. Such overlapping emergencies cannot be predicted.

14 76. All 4,000 of the federally deployed National Guard members are now unavailable if a
15 natural disaster or other state-emergency erupts. These National Guard members, coming from
16 the 79th Infantry Brigade Combat Team, include a large number of guard members who serve in
17 Taskforce Rattlesnake, the State's specialized fire combat unit. These service members have
18 specialized training in wildland fire mitigation and prevention and direct fire suppression, and
19 would be highly difficult for the State to replace.

20 77. The 79th Infantry Brigade also contains Counterdrug Taskforce members that
21 specialize in providing support to stop the trafficking of fentanyl at the U.S.-Mexico Border.

22 78. Because these National Guard members have been federalized for 60 days—
23 unlawfully, as detailed below—the State of California is deprived of resources to protect itself
24 and its citizens, and of critical responders in the event of a State emergency.

1 **CLAIMS**

2 **FIRST CAUSE OF ACTION**

3 **Ultra Vires**

4 **(All Defendants)**

5 79. Plaintiffs reallege and incorporate by reference the foregoing allegations as fully set
6 forth herein.

7 80. Neither the President nor an agency can take any action that exceeds the scope of
8 their constitutional or statutory authority.

9 81. Federal courts possess the power in equity to grant injunctive relief “with respect to
10 violations of federal law by federal officials.” *Armstrong v. Exceptional Child Ctr., Inc.*, 575 U.S.
11 320, 326-27 (2015). Indeed, the Supreme Court has repeatedly allowed equitable relief against
12 federal officials who act “beyond th[e] limitations” imposed by federal statute. *Larson v.*
13 *Domestic & Foreign Com. Corp.*, 337 U.S. 682, 689 (1949).

14 82. Section 12406 requires that orders pursuant to that section be “issued through the
15 governors of the States or, in the case of the District of Columbia, through the commanding
16 general of the National Guard of the District of Columbia.” 10 U.S.C. § 12406.

17 83. Section 12406 originated as part of the Militia Act of 1903. Publ. L. No. 57-33, 32
18 Stat. 775 (1903). The original section did not include this provision, but the statute was
19 subsequently amended to include the requirement that orders be issued through the governor.
20 Militia Act of 1908, ch. 204, 35 Stat. 399 (1908).

21 84. “‘A statute should be construed so that effect is given to all its provisions, so that no
22 part will be inoperative or superfluous, void or insignificant.’” *Hibbs v. Winn*, 542 U.S. 88, 101
23 (2004) (quoting Singer, *Statutes and Statutory Construction* § 46.06, pp. 181–186 (rev. 6th ed.
24 2000)). “‘[A] significant change in language is presumed to entail a change in meaning’ even
25 when legislative history is silent as to Congress’s intent.” *In re Saldana*, 122 F.4th 333, 341 (9th
26 Cir. 2024) (quoting Antonin Scalia & Bryan A. Garner, *Reading Law: The Interpretation of Legal*
27 *Texts* 256–60 (2012)).

1 85. As discussed *supra*, Defendants did not notify Governor Newsom of the orders or
2 attempt to obtain his consent. Nor did they issue their orders through the Governor as the statute
3 directs. This circumvention deprived the Governor of the opportunity that compliance with the
4 terms of the statute would have afforded him—at a minimum, consultation with the President or
5 other federal officials not only as to whether the California National Guard should be called into
6 federal service at all, but if so, which service members and in what number should be called, and
7 for what purposes and what period of time.

8 86. President Trump’s Memo purporting to call into federal service members of the
9 California National Guard under 10 U.S.C. § 12406 without issuing this order through Governor
10 Newsom is contrary to law and outside of the authority granted to the President under that statute.

11 87. Secretary Hegseth’s orders purporting to federalize 4,000 members of the California
12 National Guard without issuing these orders through Governor Newsom are contrary to law and
13 outside of Secretary Hegseth’s authority.

14 88. Defendants’ actions are *ultra vires* for reasons beyond their failure to follow the
15 procedural requirements of section 12406. Conditions in California did not fall under any of the
16 situations set forth in section 12406 that would allow its invocation at the time it was invoked, nor
17 do they now, nor is it reasonable to expect them to for the next 60 days. The statute authorizes the
18 federalization of the National Guard to (1) repel invasion of the United States by a foreign nation,
19 (2) suppress a rebellion or danger of rebellion against the authority of the Government of the
20 United States; or (3) execute federal laws when the President is unable to do so with the regular
21 forces. 10 U.S.C. § 12406(1)-(3).

22 89. The Trump Memo does not (and cannot) assert that California is being invaded or is
23 in danger of invasion by a foreign power. Nor has the Trump Administration identified a
24 “rebellion,” which is generally understood to connote “an organized attempt to change the
25 government or leader of a country, [usually] through violence,” something much beyond mere
26 protest or sporadic acts of disobedience and violence. *Rebellion*, *Black’s Law Dictionary* (12th
27 ed. 2024). The Trump Memo asserts that “[t]o the extent that protests or acts of violence directly
28 inhibit the execution of the laws, they constitute a form of rebellion against the authority of the

Government of the United States,” but primarily peaceful protests with some acts of violence or civil disobedience do not rise to the level of a rebellion. Indeed, nothing about the scale of the protests or acts of violence set these events apart from other recent periods of significant social unrest.

90. Defendants have also not shown that any of the protests have rendered the President “unable with the regular forces to execute the laws of the United States.” 10 U.S.C. § 12406(3). Indeed, Governor Newsom and Mayor Karen Bass both reported on June 7, 2025, that they had sufficient resources to respond to any potential unrest or threats to safety or property. A June 8 letter from the Office of Governor Newsom to Secretary Hegseth notes that as “demonstrated by the robust law enforcement response yesterday evening to protect federal facilities, local law enforcement resources are sufficient to maintain order.” And on both June 6 and 7, ICE officials were able to act on warrants and make arrests.

91. Violation of the Posse Comitatus Act is imminent, if not already underway.

92. Accordingly, Plaintiffs are entitled to a declaration that any action taken pursuant to the June 7, 2025 Presidential Memorandum is invalid, and an injunction prohibiting DOD Defendants from implementing the Memorandum.

SECOND CAUSE OF ACTION
Tenth Amendment of the U.S. Constitution; Article I, § 8, cls. 15-16; Title 32
(All Defendants)

93. Plaintiffs reallege and incorporate by reference the foregoing allegations as fully set forth herein.

94. The Tenth Amendment provides that “[t]he powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.”

95. The President’s unlawful order calling up “at least 2,000 National Guard personnel” infringes on Governor Newsom’s role as Commander-in-Chief of the California National Guard and violates the State’s sovereign right to control and have available its National Guard in the absence of a lawful invocation of federal power.

1 96. Under our system of federalism, policing and crime control remain one of the most
 2 basic rights reserved to the states. “Indeed, we can think of no better example of the police power,
 3 which the Founders denied the National Government and reposed in the States, than the
 4 suppression of violent crime and vindication of its victims.” *United States v. Morrison*, 529 U.S.
 5 598, 618 (2000). “[T]he power to establish the ordinary regulations of police has been left with
 6 the individual States, and cannot be assumed by the national government.” *Patterson v. State of*
 7 *Kentucky*, 97 U.S. 501, 503 (1878).

8 97. Local control of law enforcement is also essential to the protection of liberty and
 9 government accountability. “Because the police power is controlled by 50 different States instead
 10 of one national sovereign, the facets of governing that touch on citizens’ daily lives are normally
 11 administered by smaller governments closer to the governed. The Framers thus ensured that
 12 powers which “in the ordinary course of affairs, concern the lives, liberties, and properties of the
 13 people” were held by governments more local and more accountable than a distant federal
 14 bureaucracy. The Federalist No. 45, at 293 (J. Madison).” *Nat’l Fed’n of Indep. Bus. v. Sebelius*,
 15 567 U.S. 519, 536 (2012).

16 98. Deploying over 4,000 federalized military forces to quell a protest or prevent future
 17 protests despite the lack of evidence that local law enforcement was incapable of asserting control
 18 and ensuring public safety during such protests represents the exact type of intrusion on State
 19 Power that is at the heart of the Tenth Amendment. State officials in conjunction with local
 20 officials, such as the Los Angeles Police Department and the Los Angeles Sheriff’s Department
 21 are in the best position to determine what resources are necessary to preserve public safety amid
 22 protest activity, and to intervene to enforce public safety and criminal laws when warranted.

23 99. Further, here the federal government is not merely intruding on the province of the
 24 State, but doing so by taking command of the State’s own resources, the California National
 25 Guard, which remains under State control unless properly federalized. Proper federalization has
 26 not happened here.

27 100. Because the January 7, 2025 Presidential Memoranda and resulting DOD Order and
 28 June 9 DOD Order purport to federalize the National Guard for an unconstitutional and illegal

1 purpose, Plaintiffs respectfully ask the Court to find that the Orders are void, and that the
2 National Guard should be transferred back to the rightful command and control of the State of
3 California through Governor Newsom.

4 101. Plaintiffs are also entitled to a declaration that any action taken pursuant to the June 7,
5 2025 Presidential Memorandum is invalid, and an injunction prohibiting DOD Defendants from
6 implementing the Memorandum.

7
8 **THIRD CAUSE OF ACTION**
9 **Violation of the Administrative Procedure Act**
10 **(Against DOD Defendants)**

11 102. Plaintiffs reallege and incorporate by reference the foregoing allegations as fully set
12 forth herein.

13 103. Under the Administrative Procedure Act, a court must “hold unlawful and set aside
14 agency action” that is “arbitrary, capricious, an abuse of discretion, or otherwise not in
15 accordance with the law,” that is “contrary to constitutional right [or] power,” or that is “in excess
16 of statutory jurisdiction, authority, or limitations, or short of statutory right.” 5 U.S.C.
17 § 706(2)(A)-(C).

18 104. An agency may not take any action that exceeds the scope of its constitutional or
19 statutory authority.

20 105. The DOD Defendants lack authority to federalize members of the California National
21 Guard without issuing such orders through Governor Newsom, who has not consented to their
22 actions or been afforded the opportunity to consult on any deployment. Such agency actions are
23 unauthorized, unprecedented, and not entitled to deference by this Court.

24 106. Accordingly, Plaintiffs are entitled to a declaration that Secretary Hegseth’s June 7
25 and June 9 Orders are invalid, and an injunction prohibiting DOD Defendants from implementing
26 the June 7, 2025 Presidential Memorandum.
27
28

PRAYER FOR RELIEF

107. Wherefore, Plaintiffs request that the Court enter a judgment against Defendants and award the following relief:

- a. A declaration that the June 7, 2025 Presidential Memorandum calling into Federal service members and units of the National Guard under 10 U.S.C. § 12406 and Secretary Hegseth's June 7 and June 9 Orders (and any future orders) calling the California National Guard into service under the stated authority of the President's use of 10 U.S.C. § 12406 are unauthorized by and contrary to the laws of the United States;
- b. Injunctive relief prohibiting the DOD Defendants from federalizing and deploying the California National Guard and military without meeting the requirements of 10 U.S.C. § 12406, which include that issuance shall be "through the Governor" and only for the reasons set forth in 10 U.S.C. § 12406 (1-3) and not to conduct domestic law enforcement activities;
- c. Award the State of California its costs and reasonable attorneys' fees; and
- d. Such additional relief as the court deems proper and the interests of justice may require.

1 Dated: June 9, 2025

Respectfully submitted,
